The Project Report (Dissertation) should be self contained. It should contain table of contents, introduction, at least three chapters, bibliography and index. The main content may be of length not less than 30 pages in the A4 format with one and half line spacing. The project report should be prepared preferably in \LaTeX . There must be a project presentation by the student followed by a viva voce. The components and weightage of External and Internal valuation of the Project are as follows:

Both the Internal and the External evaluation shall be carried out using direct grading system as per the general guidelines of the University. Internal evaluation must consist of (i) 2 tests (ii) one assignment (iii) one seminar and (iv) attendance, with weightage 2 for tests (together) and weightage 1 for each other component.

Each of the two internal tests is to be a 10 weightage examination of duration one hour in direct grading. The average of the final grade points of the two tests can be used to obtain the final consolidated letter grade for tests (together) according to the following table.

Student3	11	5	$11/5 = 2.2$	F

Question Paper Pattern for the written examinations

For each course there will be an external examination of duration 3 hours. The valuation will be done by Direct Grading System. Each question paper will consist of 8 short answer questions each of weightage 1, 9 paragraph type questions each of weightage 2, and 4 essay type questions each of weightage 5. All short answer questions are to be answered while 6 paragraph type questions and 2 essay type questions are to be answered with a total weightage of 30. The questions are to be evenly distributed over the entire syllabus (see the model question paper). More specifically, each question paper consists of three parts viz Part A, Part B and Part C. Part A will consist of 8 short answer type questions each of weightage 1 of which at least 2 questions should be from each unit. Part B has 3 units based on the 3 modules of each course. From each module there will be three questions of which two should be answered. Part C will consist of four essay type questions each of weightage 5 of which 2 should be answered. These questions should cover the entire syllabus of the course.
