Method of Indirect Grading

Evaluation (both internal and external) is carried out using Mark system. The grade on the basis of the total internal and external marks will be indicated for each course, for each semester and for the entire programme.

% of Marks	Grade	Interpretation	Grade	Range of	Class
			Point Average	Grade points	
95 and above	0	Outstanding	10	9.5-10	
85 to below 95	A+	Excellent	9	8.5 - 9.49	First Class with
75 to below 85	А	Very good	8	7.5 - 8.49	distilletion
65 to below 75	B+	Good	7	6.5 - 7.49	First Class
55 to below 65	В	Satisfactory	6	5.5 - 6.49	
45 to below 55	C	Average	5	4.5 - 5.49	Second Class
35 to below 45	Р	Pass	4	3.5 - 4.49	Third Class
Below 35	F	Failure	0	0	Fail
Incomplete	Ι	Incomplete	0	0	Fail
Absent	Ab	Absent	0	0	Fail

Ten point Indirect Grading System

After the successful completion of a semester, Semester Grade Point Average (SGPA) of a student in that semester is calculated using the formula given below. For the successful completion of a semester, a student should pass all courses. However, a student is permitted to move to the next semester irrespective of SGPA obtained.

The Semester Grade Point Average can be calculated as

$$SGPA=Sum of the credit points of all courses in a semester$$

$$Total credits in that semester$$

$$ie., SGPA=C1*G1+C2*G2+C3*G3+....n$$

$$n$$

where G1, G2, ... are grade points of different courses; C1, C2, are credits of different courses of the same semester and n is the total credits in that semester.

% of marks of a semester = $(SGPA/10) \times 100$ The SGPA is corrected to three decimal points and the percentage of marks should be approximated to two decimal points

The Cumulative Grade Point Average (CGPA) of the student is calculated at the end of a programme. The CGPA of a student determines the overall academic level of the student in a programme and is the criterion for ranking the students. CGPA can be calculated by the following formula

The Cumulative Grade Point Average (CGPA) can be calculated as

CGPA=<u>Total credit points obtained in six semesters</u> Total credits acquired(120)

Total percentage of marks= (CGPA/10)*100

CGPA of core courses=Total credit points obtained for Core Course Total credits acquired for Core Courses
