Entry Level assessment in Chemistry- Report (2020-2023 UG Batch)

Basic understanding in Chemistry is evaluated through an online exam. Topics for the examination were given to the students. Prior knowledge of students is also tested.

Tuesday 22/09/2020

10:00 AM to 10:30 Noon:

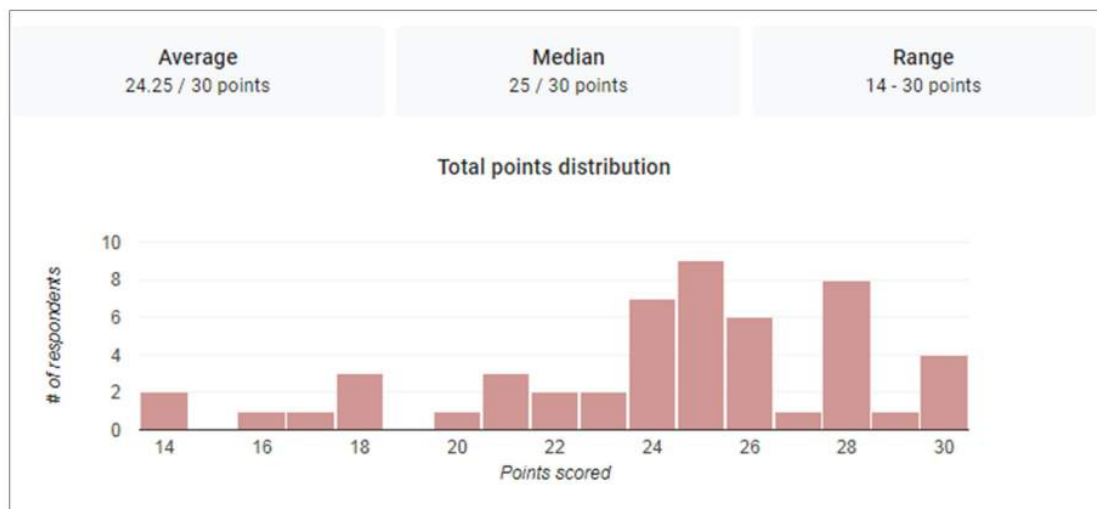

MCQ type entry level tests were conducted through the google classroom. These were for an assessment of their basic knowledge in Basic Chemistry. Based on the assessment, students were grouped into advanced and slow learners.

No. of students present: 52/52

b. Department of Sociology – Entry Level Exam

Arunima Jones
BA Sociology

1. Briefly describe the origin of Sociology

In the social sciences disciplines, every social sciences except sociology such as History, economics, Political Science, Geography, psychology were emerged first. The sociology was the only discipline that emerged at last.

For the emergence of sociology it has social background. Urbanisation, industrialisation, capitalism were the reasons. When the society develops, it became the reason for the development of sociology. French revolution were also a reason, where the estate system was stays. The destruction of feudalism emerged the industrialisation. This enlarges the market and the expansion of banks. This were the social background.

Then the philosophical background:-

Renaissance means the rebirth. At the beginning the society where ruled by the religion. The people believes in faith. When the religion spreads, it destructed the spread of knowledge, it was the dark age. Then the renaissance emerged where the society changes.
