### Sample Mentoring Reports

### DEPARTMENT OF SOCIAL WORK

VIMALA COLLEGE, THRISSUR

MENTORING REPORT (2019-21 Batch)

**Mentor: Ms. Treesa T Pulickal**

The mentoring was done with the students who are pursuing MSW programme (2019-21 Batch). There were 24 students. As the mentor was also their tutor, the class tutorial hour was spent for mentoring the students. Initially students were individually met by the mentor and had an interaction. The mentor was able to understand students' socio-economic conditions and their psychosocial and financial problems. All the students were made comfortable with the mentor and motivated by explaining the scope and job prospects of the programme and the need to develop skills and competencies. Some of them shared their difficulties in coping with the MSW programme and curriculum as they had an entirely different background in graduation. A few students had difficulties in finding out study materials and preparing notes. They were also having inadequate skills for doing assignments, seminars and presentations.

The students who were identified as slow learners were helped by introducing peer learning education. The students who need support in different areas of their academics and other aspects of performance were allotted to students who were ready to help them. They were also asked to submit the report of their peer learning activities. Supervision and guidance were given regularly by the mentor. The financial resources were also mobilised to support the students who are from poor economic backgrounds.

During the mentoring process one of the students was identified as having mental health issues. As the mentor was trained in dealing with mental health issues, timely interventions were given to the student. Continuous guidance and support were given to the students during mentoring sessions. The mentor was always available for helping them and spent time with them when they needed support. The mentor could deal with both academic and personal issues of the students and provide timely support and intervention to ensure their overall wellbeing.

### Brief Report of the Meeting:

Mentor introduced the concept of mentoring to the students and they are happy that the college initiated such a useful idea. Students expressed their stress and strain during this period and they wanted their offline classes back. They face eye stress and headache during continuous online classes. Students very enthusiastically participated in the meeting and expressed their sincere opinions regarding the mentoring programme.

Students expressed that they really wanted a forum or a person to express their feelings and stress regarding personal and academic issues. A whatsapp group was also formed for sharing their ideas, opinions, expectations, feelings and complaints freely.

A google form was prepared and circulated among them asking their:

- 1) Personal and Family matters
- 2) Daily Routine and study time
- 3) Identifying herself
- 4) Academics
- 5) Expectations from Mentor and Mentoring process

All mentees filled the google form with enthusiasm and they have opened their mind. They showed trust and expectations about this programme. They expect that this process would help them grow. It will also help them to cover this pandemic situation by care and love showered them by the mentor. Mentees themselves will also have free communication through the WhatsApp group. The students requested to have such meeting at least twice a month in order to free up their minds and relax. Both mentor and mentees together plan for activities for the next session. The meeting ended with a happy note and created a positive vibe.

## VIMALA COLLEGE (AUTONOMOUS), THRISSUR

9. ANJANA NANDANAN
10. AKSHARA P V
11. KRISHNAJA T R
12. MARY ANN MARTIN
13. LIYA K. KURIAN
14. ROSEMOL JOHNSON
15. ANN MARIYA JOSEPH A J
16. ANANYA RAJAN
17. ANVITHA JOY

In the first phase of mentoring, the students were asked to give a brief self-introduction and also asked to share their difficulties and experiences in life. They were asked to share their preferred learning styles and advised to have a clear understanding of their expectations and to have a plan with milestone.

In the Second phase, a keen interest was taken to identify their strengths and helped them to identify their weaknesses which is crucial for their growth. They were given proper direction to achieve their goals. In the Covid pandemic situation the students were given proper guidance how to manage online classes and also discussed the difficulties faced.
