Report

The event was aimed at providing a basic awareness on plagiarism, how it is connected to academics and the outcomes if plagiarism is detected in a submission. The webinar is very significant with the rise of plagiarism in academia. So, it is important to let students and researchers know the outcomes of plagiarizing. The resource person of the session, Ms Salini Sudesh, is a Fellow of Higher Education Academy, UK and has extensive experience with detecting and avoiding plagiarism. The speaker introduced many online plagiarism checking tools like Turnitin, Urkund, etc. for future reference while avoiding plagiarism. The participants were the students of B. Voc Web Technology. The one-hour session benefitted the staff and the students of the department profoundly, as the knowledge gained is useful to avoid plagiarizing, manage time and hone research skills. Certificates of participation were issued to the students and feedback was collected in which the students expressed their urge to have similar sessions in future.
