

VIMALA COLLEGE (AUTONOMOUS), THRISSUR

S200

Report

Academic Year 2020-2021

Name of the Event: “DBT Sponsored National Webinar on “Bio- Statistics: Opportunities and Challenges,”

Date:18.08.2020

Time: 11.30 am to 1.30 pm

Platform: Google Meet. Code: <https://meet.google.com/bfe-daoj-tzd>

Organized by: Department of Statistics , Vimala College (Autonomous)

Number of Participants: 177

Number of Participants from outside Kerala:4

Beginning from the core definition of biostatistics, Dr. K. K. Jose could enlighten the audience on the practical applications of biostatistics; as a part of this, a few technical terminologies such as mortality rate fatality rate, morbidity rates, life expectancy and a few statistical tools like wild type strain reproductive ratio, mutants strain reproductive ratio, that are used for modelling the epidemiological data, were illustrated in brief. The audience could also get to know that a few of the main challenges in the field of biostatistics is the lack of proper training for biostatisticians in statistical theory and methods, the lack of communication skills and even the shortage in availability of skilled statisticians.

While the second decade of the twenty-first century can be considered as the golden era of biostatistics, the field is presently experiencing an unparalleled development in data science and data analytics. Along with this, the discussions on clinical trials in epidemiology including its various phases, its design of experiments and the study protocol, indeed find their importance in the present global scenario. The resource person also pointed out that the field of bio statistics would be incomplete without the big data analytics which has a precision as well as the bio-equipment's that are used in this field.

As an experienced biostatistician, Dr. Jose could confidently opine that the changing dynamics, has presented new opportunities for those who can help business and regulatory leaders in making quick and accurate decisions about drug development and market

Assessment Period (2016 – 2021)

VIMALA COLLEGE (AUTONOMOUS), THRISSUR

authorisation, and hence a brilliant opening for skilled biostatisticians. It was an explanatory and informative session, where students interacted, asked questions and cleared their doubts.

The webinar was concluded by the words of gratitude from Dr. Divya P. R, Head of the Department of Statistics, Vimala College. All the faculty members captured a group picture, after the programme. The certificates for participation were provided to all the participants, through E-mail.

A report on the webinar conducted by the statistics department.

The webinar on Bio- Statistics: Opportunities and Challenges, was conducted by the Department of Statistics, Vimala College Autonomous, on 18th August 2020, under the financial assistance from DBT, STAR College Scheme (Department of Biotechnology, Ministry of Science and Technology, Govt of India).

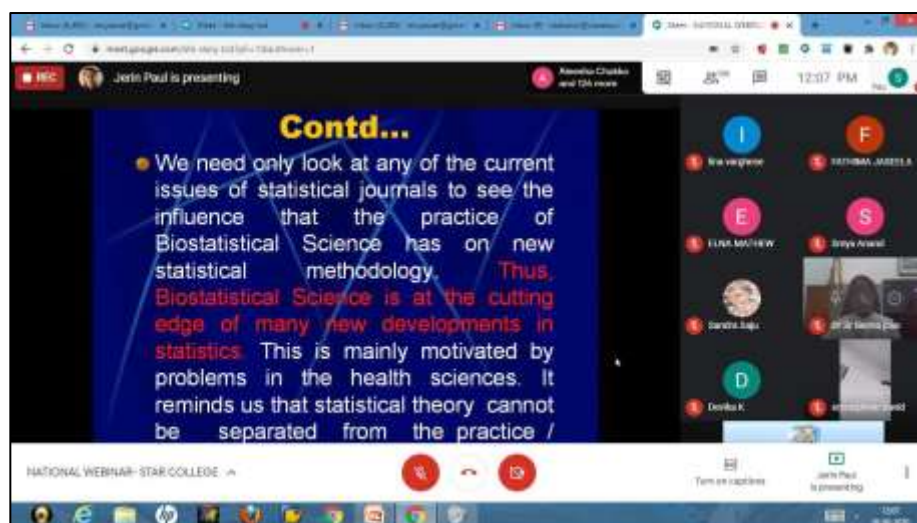

Dr. K.K Jose, Hon. Director, School of Mathematics and Statistics, Mahatma Gandhi University, was the resource person of the day. The programme was felicitated by the staff coordinator Dr. Preethi John, Assistant professor of the Department of Statistics, Vimala College, Thrissur.

For details contact: statisticsdbtstarcollege@gmail.com

9447734047

Eligible participants: BSc students

Instructions for the participants:

E- Certificates will be issued to the participants after filling up the Feedback form.
Ensure good internet connectivity for smooth and uninterrupted viewing. Please join 5 to 10 minutes prior to the commencement of the webinar.

Organising Committee

Principal: Dr. St. Beena Jose Coordinator: Dr. Preethi John
Head of the Department: Dr. Divya P R
Members: Ms. Jismi Mathew, Dr. Jenni Paul, Dr. Anamiya Baby
Student Coordinators: Ms. Aleesha Chakkio, Ms. Akshaya P. Nair

About DBT

The Department of Biotechnology (DBT) is an Indian Government department, under the Ministry of Science & Technology responsible for administering development and commercialization in the field of modern biology and biotechnology in India. It was set up in 1986. Through several research and development projects, demonstrations, grants and creation of infrastructural facilities a clear visible impact of this field has been seen. The department has made significant achievements in the growth and application of biotechnology in the broad areas of agriculture, health care, animal sciences, environment, and industry. The proven technologies at the laboratory level have been scaled up and demonstrated in field.

About Star College Scheme

Star College Scheme has been initiated by DBT in 2008 to support colleges and universities offering undergraduate education to improve science teaching across the country. DBT is committed to the values of i) Pursuit of excellence ii) Academic and intellectual freedom iii) Creativity and innovation iv) Diversity v) Cooperation and Communication & vi) accountability. DBT has therefore, launched a scheme for improving critical thinking and hands on experimental work at undergraduate (college) level in sciences. It is expected to encourage, more students to take-up higher education in science. DBT will identify colleges with ambition and potential for excellence and provide academic and physical infrastructure for achieving excellence in teaching and unique exposure of students to experimental science.

About the department

The Degree Course in B.Sc. Statistics was launched at Vimala College, Thrissur in the year 1981 under the Department of Statistics, affiliated to the University of Calicut. The Department is headed by Dr. Divya P R and is ably supported by a dedicated team of four permanent faculties. The Department understands the need for equipping students with necessary skills and support whole heartedly for the development of students.
