Department of Biotechnology (DBT)
Under the Ministry of Science and Technology, over the past 30 years, has given a new impetus to the developments in modern biology and biotechnology. The Department of Biotechnology has been supporting undergraduate science education in the country under “Star College Scheme” and there has been considerable change in the scenario of basic science education.

Star College Scheme

Star College Scheme has been initiated by DBT in 2008 to support colleges and universities offering undergraduate education to improve science teaching across the country. DBT is committed to the values of i) Pursuit of excellence ii) Academic and intellectual freedom iii) Creativity and innovation iv) Diversity v) Cooperation and Communication & vi) accountability. DBT has therefore, launched a scheme for improving critical thinking and 'hands on' experimental work at undergraduate (college) level in sciences. It is expected to encourage, more students to take up higher education in science.

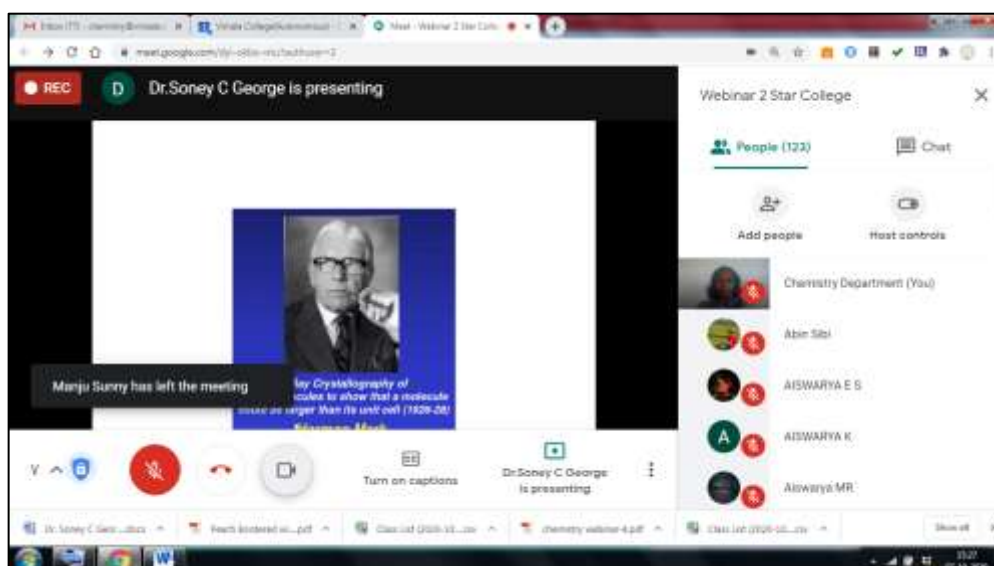

Post Graduate Department Of Chemistry

The department of chemistry established in 1967, is one of the premier departments of the College. The department's strong record of achievements is based on its advances in chemical research, its success in incorporating these advances into classroom teaching and research programs and its close relationship to society through extension activities. The department has grown into status of a post graduate department since 2012.
