Report
Academic Year 2017-18

Name of the event: Lecture on Architecture and Designing

Date: 23rd November 2017

Venue: Lisseux Hall

Organized by: Department of English

Participants: 71

The Department of English has organized a lecture, on Architecture and Designing, on 23rd November 2017 during the Association hour. Miss Maria Francis, Architect was the resource person. The talk spanned from the plot selection to subtle aspects of color combinations in designing. Architecture deals with the minute parts of designing and transforming a mere construction into a home. The living area, sleeping area, personal spaces, kitchen, bathrooms, indoor and outdoor vegetation have a significant role in designing. Personal tastes and priorities would contribute in bringing a touch of uniqueness and feel to the designs. She introduced and explained the color wheel to the students. She remarked that selecting color schemes for different spaces is an art which would add more beauty and life to the building along with asserting the individual style. The lecture was highly informative and engaging. Both UG and PG English Literature and UG Functional English students attended the session.
