SURVEY ON AWARENESS OF ICT TOOLS

Covid-19 pandemic has put the world out of order, and the teaching-learning process has also become a severe victim of this crisis.

Fortunately, ICT has enabled the teaching fraternity to build the gap in the teaching learning process with various tools and technologies. Though we have successfully implemented online teaching and virtual classrooms, this area is yet deep to be exploited and explored.

Department of Computer Science, Vimala College (Autonomous), Thrissur in association with Unnat Bharat Abhiyan is conducting a gap-analysis on perception and expectation on online teaching and learning.

WORLD'S MOST PERSISTENT AND URGENT QUESTION IS, 'WHAT ARE YOU DOING FOR OTHERS?'

This year World Humanitarian Day comes as the world continues to fight the COVID-19 pandemic over recent months. On this World Humanitarian Day, 18 August, we pay a special tribute to Real Life Heroes - humanitarians and front-line workers who are doing extraordinary things to help people whose lives have been upended by crisis.

UNHEARD STORIES FROM UNSEEN HEROES

World Humanitarian Day (WHD) is held every year on 18 August to pay tribute to all workers who risk their lives in humanitarian action, and to rally support for people affected by crisis around the world. In this day, the world recognizes humanitarians, workers, relief and aid workers who continue, despite the odds, to provide life-saving support and protection to people living in crisis. World Humanitarian Day was established in 2008 by the United Nations General Assembly and was first officially celebrated in 2009. The date of this August was chosen as it marks the anniversary of the founding of the United Nations. The United Nations High Commissioner for Disaster Relief, Sirpale Datta, said that their lives find 120 million people in crisis, often through war or natural disasters and that it was a privilege to be able to help them. World Humanitarian Day is to raise awareness of the work of humanitarians and to honor the world who have been affected by crisis.
