Almost 100 students took part in the survey. They were accompanied by PG students to give the necessary guidance. The students were oriented so as to brief them about the survey and the questionnaire. They were dropped off at the spot for the survey in the college bus. The third year students (100 nos.) who were the enumerators were divided into groups of 2 each with a PG student for guidance. Ward Member Ms. Jessy also accompanied them to show the root and houses. They have taken a detailed survey to collect the data on water usage from the households by directly asking the people through a questionnaire and observation. Besides collecting information, each household was also informed of certain tips and suggestions for water conservation. Together around 150 houses were covered and information collected and tabulated. The data gathered has been converted to a report and submitted to the HoD for approval and for further submission to the village beneficiaries.

The participants also carried out an awareness programme among the other students of the department on water conservation based on their experience at UBA village and gave necessary tips on conservation of water and reduction of water wastage.
