Covid-19 pandemic has put the world out of order, and the teaching-learning process has also become a severe victim of this crisis. Fortunately, ICT has enabled the teaching fraternity to build the gap in the teaching learning process with various tools and technologies. Though we have successfully implemented online teaching and virtual classrooms, this area is yet deep to be exploited and explored. Department of Computer Science, Vimala College (Autonomous), Thrissur in association with Unnat Bharat Abhiyan conducted a gap-analysis on perception and expectation on online teaching and learning under the schools in UBA villages and other schools in Kerala.
