5.13 Major grievances of students (if any) redressed:

For the effective grievance redressal process, this year IQAC conducted a survey among the students to elicit their opinion about the functioning of the college, its activities and their suggestion to improve. The data were analysed and discussed in a meeting of grievance redressal committee and decided the modification to be made. The students have been informed of this in a meeting.

Another way of grievance redressal was through suggestions box. Boxes are placed in three locations and IQAC encourages students to let the college authorities know their opinion. The boxes were opened and discussed in a meeting of grievance redressal committee. A detailed report of the measures taken was put up on the notice board.

The students also directly approached the Principal and the Coordinator of Grievance Redressal Committee in case of difficulties they encountered with regard to lack of transportation facilities, anomalies in University Examination, misbehaviour from bus operators etc. In such situations the coordinator of the Cell referred such cases to local police station and university authorities to ensure appropriate and timely action to resolve those issues.

Criterion – VI

6. Governance, Leadership and Management

6.1 State the Vision and Mission of the institution

Vision: We envision the total transformation of young women for their enrichment and of the society at large and the nation as a whole.

Anticipating the autonomous status from next academic year all the departments constituted Boards of Studies of all the subjects and conducted syllabus restructuring. The recommendations of the revision was approved by the Academic Council of the College and the same was approved by the University

6.3.2 Teaching and Learning

- Regular tutorial sessions, remedial education, peer teaching and mentoring
- Value education sessions every week
- Special classes to compensate lost teaching days
- Compulsory assignments and seminars for all students
- Well equipped labs
- ICT facilities improved
- Facilitated faculty participation in refresher/orientation courses, paper presentations
- Regular internal assessment according to university stipulations and results are conveyed to University and also to parents during departmental PTA meetings
- Well-equipped library, updating resources and active library committee
- Departmental library
- Reprography services
- Regular meetings with class representatives to convey changes in the schedule, ensure students' participation in all activities
- Student evaluation by teachers and convey the same to the concerned teachers
- Exposure visit, field trips
- Interactive sessions with experts in the concerned subjects
- Peer teaching

- New initiatives like Walk with Scholar (WWS), Scholar Support Programme (SSP) , Additional Skill Acquisition Programme (ASAP) etc continued with the support of Kerala State Higher Education Council.

6.3.3 Examination and Evaluation

- Periodical class tests, two internal tests are conducted as part of formative assessment.
- End Semester examinations are conducted by the University.
- Assignments and seminars are also evaluated
- The internal grades are published and communicated to parents.
- Individual meetings with parents
- A systematic mechanism to address the grievances of students regarding internal assessment.

Best Practices

Best Practice 1

Title of the Practice: Continuing Professional Development Programme for social workers

Goals.

- To provide a common platform for social workers engaged in the provision of counselling services to debrief their experience and evaluate their professional practice
- To offer social workers a range of counselling skills and techniques based on various theoretical perspectives
- To explore and inform evidence based best practices in the field of helping
- To facilitate reflective learning in their professional practice
- To pool resources for learning as well as practice
- To find out needs for professional supervision

Context:

Continuing Professional Development (CPD) is a term commonly used to denote the process of the ongoing education and development of professionals, from initial qualifying education and for the duration of professional life, in order to maintain competence to practice and increase professional proficiency and expertise. Social workers work in a variety of settings: family services agencies, children's support agencies, health settings, educational institutions, correctional institutions, welfare administration agencies and Central and State government departments. An increasing number of social workers work in these settings as counsellors. Their consumers include children, adolescents, parents, people with physical or mental illness, elderly etc. Their work with clients may present many personal and professional challenges, but also an on-going opportunity to assess personal strengths, feelings, thoughts and limitations, as they relate to other people. Successfully counselling clients through difficult times requires a combination of interpersonal skills, sufficient knowledge about the issues involved and a host of personal attributes. Though social workers have basic counselling competency as a result of their training in case work and counselling as part of their MSW programme, there should be an on-going learning process throughout their career that can provide them with more clarity, focus, further understanding and professional and personal growth.

Hence, this programme proposes a series of sessions to the social workers engaged in counselling services for their professional development.

Practice

The programme was started in the year 2014-15 and continued during the year 2015-16. Invitations were sent to social workers working in the field of counselling including the alumnae of the Department of Social work, Vimala College. There were three sessions during the reporting period. The sessions were facilitated by experts in the field. The sessions were participatory in nature so that all the practitioners got opportunities to share their experiences, apprehensions and expectations. The college received very good feedback from the participants and it was decided to continue the practice during the next year as well.

Evidence of success:

- Active participation of social workers
- Positive feedback
- Evidence of improvement in the participants' confidence in actual practice settings

Best Practice 2**Title of the Practice– Haritham****Background**

The Department is conducting a Certificate Course “Entrepreneurial Skill Development in Farming” with aim to motivate and develop the students to be successful entrepreneurs through innovative farming methods and to instill the relationship between man and nature. One of the methods to achieve this aim is to link the students with Farmers who do innovative farming methods.

Motto

To make awareness among the students about the benefits of organic farming and make them responsible to support the sustainable development practices.

Practice

The Department conducts an organic vegetables sale programme –**HARITHAM** in the campus with the leadership of students. They collect vegetables from the organic farmers in the District and sell it to the college community including staff and students. Thus the department acts as a helping hand to the farmers by providing an outlet to their produce. The farmers are really satisfied because they are getting reasonable market price through this sale.

Outcome

- (1) The students could understand the problems faced by the organic farmers especially in marketing by assuring reasonable price.
- (2) The students could learn the marketing strategies of sales.
- (3) The community could avail and use pesticide - free vegetables.

Problems encountered

There wasn't any official data bank to identify the vegetable farmers in the district and to know their crops. To purchase from the SHG farmers was not easy because of their official procedures.
