Networkz Systems is a technology training and talent development company with a core focus on global technology from companies like Cisco/Microsoft/EC-Council etc., they provide training solutions related to various information technology segments. Anchored at Trivandrum, Networkz Systems has training facility in various other locations.

Whereas both parties have agreed to associate and carry out programme jointly with the diligence and efficiency as desired within this MoU in conformity with appropriate administrative, financial and educational practices and implement all such plans and activities and reforms as required for the programme.

Now both parties have agreed to enter into this MoU formulated as per the mutually agreed terms and conditions mentioned below:

1. The first party will provide classroom with basic infrastructure, as per the rules of College management. Other requirements like computers, study materials and model examination papers will be provided by the second party.
2. The collection of fee as well as co-ordination of the programme will be done under mutual agreement by both parties.
3. The Second party will provide training in computer aided programme to develop quality of the students and this can provide a unique platform where students will be trained on latest tools and technologies. Multiple skills will help students to fetch high grades in college and also will provide a launch-pad to get better career opportunities.
4. The second party will provide internship for limited number of eligible candidates.
5. The second party will provide resource persons for conducting seminars and workshops .The first party will provide the necessary infrastructure. The seminars will be conducted on a cost-free basis and the hands on workshops will be conducted on paid basis by the second party (Rs 100/- per student from the statistics department and Rs.200/- will be remitted from the students attending the same from other departments).
6. There will be exchange of resource persons in between the parties.
7. This MoU guarantees one year duration from the day of putting the signature by the both parties which can be extended.

### Advantages of this program:-

- ✓ Students can get additional IT skills
- ✓ Learning latest technologies
- ✓ Mutual exchange of knowledge in advanced topics.
- ✓ Enhances the teaching learning experience.
