

ANNUAL REPORT 2022-2023

1. Observation of World environmental day (5th june 2022)

Students observed the day in association with Agriculture university , Mannuthy .They attended a seminar ,conducted a field trip and also planted saplings .

On the occasion of World Environment celebration Day through insightful talks and discussions, the students shed light on pressing environmental issues, fostering a deeper understanding among their peers about the importance of sustainable practices. Complementing their efforts, a tree-planting initiative was undertaken, symbolizing their commitment to a greener future. Additionally, a nature trip provided an immersive experience, connecting the students with the beauty and fragility of their local ecosystem. This multifaceted observance not only educated the participants about environmental challenges but also inspired them to take tangible steps towards preserving and nurturing the planet.

2. Observation of world forest day (21st day of March)

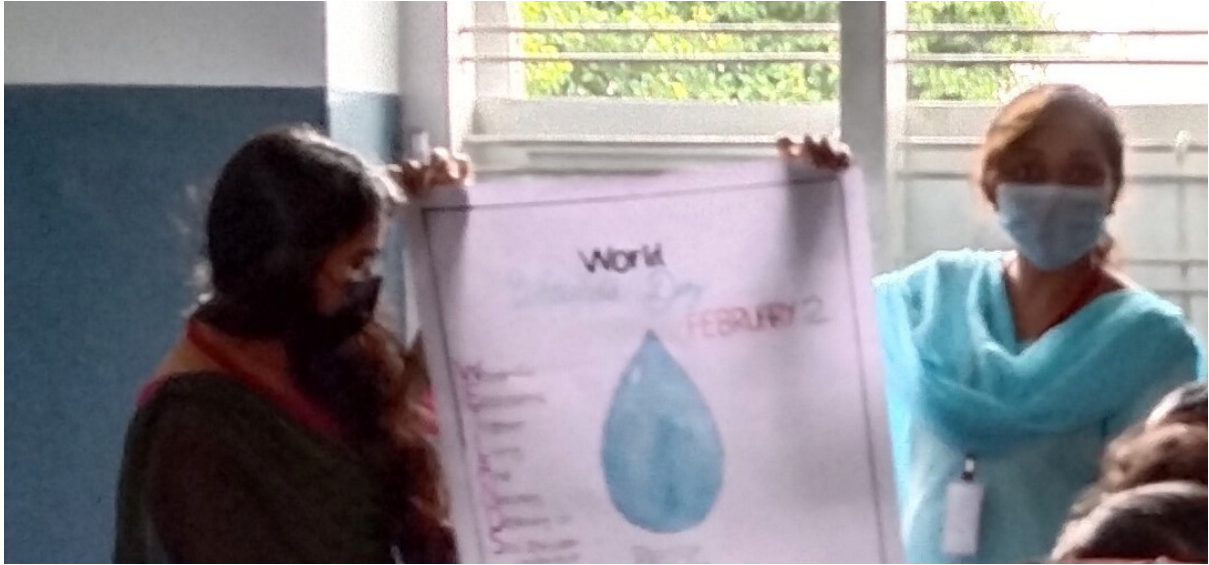

On the occasion of World Forest Day, students enthusiastically participated in an engaging poster-making activity that highlighted the significance of global forest conservation. The event, saw students creatively expressing their concerns for forest preservation and sustainable practices through vivid illustrations and compelling messages. The posters showcased a remarkable blend of artistic talent and environmental awareness, underlining the

critical role forests play in maintaining ecological balance, supporting biodiversity, and mitigating climate change. This observance not only fostered a deeper understanding of the pivotal role of forests but also inspired a commitment among the students to contribute actively to safeguarding these invaluable ecosystems for current and future generations.

3.Observation of Water day(March 22,2023)

On the occasion of World Water Day, students participated enthusiastically in a poster-making event aimed at raising awareness about water conservation and sustainability. The event, held on the college campus, showcased the students' creative talents as they skillfully translated their thoughts onto paper. The posters vividly depicted the importance of preserving water resources, highlighting key messages about responsible water usage, pollution prevention, and the global water crisis. Through a myriad of vibrant colors and imaginative designs, the students effectively conveyed the urgency of addressing water-related challenges. This observance not only fostered a sense of environmental consciousness among the participants but also served as a visual reminder of our collective duty to safeguard this precious and finite resource for future generations.

World Wildlife Day(3rd March

On the occasion of World Wildlife Day, the club members enthusiastically participated in an engaging poster-making event that aimed to raise awareness about the importance of wildlife conservation. The event, held on the college campus, saw students showcasing their creativity and concern for the planet's biodiversity through vibrant and thought-provoking posters. The posters depicted various endangered species, their natural habitats, and the urgent need for sustainable practices to protect and preserve our precious wildlife. The students' artwork effectively communicated the message of responsible coexistence with the animal kingdom and the necessity of collective efforts to combat habitat loss, poaching, and climate change. Through their visually captivating posters, the students successfully highlighted the significance of World Wildlife Day and inspired their peers to take action for a more harmonious relationship between humans and nature.

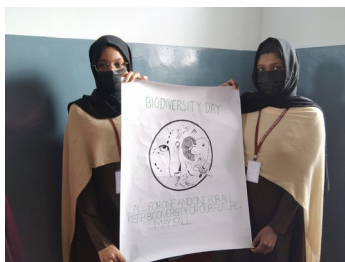

World Nature Conservation Day

On the occasion of World Nature Conservation Day, students enthusiastically participated in an engaging poster-making activity to raise awareness about environmental preservation. The event took place with great zeal as students gathered to showcase their artistic talents while conveying important messages about the significance of nature conservation. Through a vibrant array of colors and creative designs, the posters highlighted the urgent need to protect our planet's biodiversity, conserve natural resources, and adopt sustainable practices. The students' enthusiasm was palpable as they skillfully crafted visuals that depicted the delicate balance between human activities and the environment. By actively engaging in this activity, the students demonstrated their commitment to fostering a greener and healthier future for generations to come, underscoring the vital role that education plays in nurturing a sense of responsibility towards our planet.

World Biodiversity day observation

In connection with biodiversity day observation the club members conducted an awareness programme about the importance of biodiversity and the critical role it plays in sustaining life on Earth. Students passionately engaged in raising awareness through a captivating poster-

making event. Their artistic talents came to life as they skillfully combined vibrant colors and impactful visuals to depict the importance of biodiversity conservation. Through thought-provoking slogans and intricate illustrations, the students conveyed the message of safeguarding our planet's rich and diverse ecosystems. The event not only showcased their creative abilities but also highlighted their commitment to preserving the delicate balance of nature. By embracing this artistic medium, the students effectively communicated the urgency of protecting biodiversity to their peers and the broader community, fostering a deeper understanding of the interconnectedness between humans and the natural world.

ORGANIC VEGETABLE SALE

The club conducted a homely vegetable and fruit sale on 10/11/22. The culmination of Bhoomithrasena Club members' dedicated efforts in cultivating a diverse range of vegetables was met with enthusiastic response from students and staff alike. The sale not only provided access to fresh and healthy vegetables but also highlighted the club's commitment to sustainable agricultural practices. By opting for organic cultivation methods, the Bhoomithrasena Club members showcased their dedication to promoting environmentally friendly initiatives within the college community. The event served as an excellent platform for raising awareness about the benefits of organic farming and fostering a sense of responsibility towards the environment among all participants.
