

DEPARTMENT OF BOTANY

'Deeksha' Lecture Series

2021-2022

The Department of Botany organized 'Deeksha Lecture Series' on 17th September 2021 at 1.30 pm via google meet. This programme is a best practice of the department which is conducted yearly for our students making use of the expertise of our Alumnae members in their specific fields of interests and potential. Dr. Binu T.V, Assistant Professor, Department of Botany, St. Joseph's College (Autonomous), Irinjalakuda inspired the students with her innate fluent conversation and stories. It was a motivational speech for self-improvement. The students thoroughly enjoyed the talk and were delighted by the session.

2019-2020

Inauguration of 'Deeksha' Lecture Series conducted by Department of Botany on 9th July 2019. Alumnae of our department Dr. Tessy Paul P, Associate Professor and Head, Department of Botany, Christ College, Irinjalakuda conducted a workshop on identification of algal samples. In the workshop, she shared her experience about algae collection and memories about this college and department. The resource person also released our department newsletter 'SWARAM'. In the afternoon a practical session was conducted in laboratory using various freshwater algal samples collected by students from heterogeneous environments. In the session, students themselves identified algal species and observed their movements, spores, etc.
