Report

Two batches of final year B.Sc Zoology students took part in ‘mosquito eradication and dengue awareness programme’ in association with Family health center, Vilvattom area on 13/7/2018 along with the faculty members. Students and faculty attended two classes in FHC on the topics ‘mosquito vectors-identification methods’ , ‘water borne diseases and preventive methods’, Dengue fever-control measures and precautions to be taken’. Classes were handled by Mr.Firosh and Mr. Uthaman, the Health Inspectors and Medical officer, Dr Priya of FHC. After the session students went for house survey for identifying mosquito breeding places in the house of 8th and 9th divisions of Thrissur Corporation in Vilvattom village.

Second phase of ‘Mosquito eradication and dengue awareness programme’ was organized on 20/7/2018. Students visited the houses of 7th division of Thrissur Corporation in Vilvattom village, along with faculty members, asha workers and nursing staff of FHC. Work plan

includes, Mosquito larval collection, calculation of larval indices, awareness programme by survey method to take precautions to reduce the larval population in the of the selected locality house hold areas

A hands on training programme on the methods to identify the mosquito vectors, Vector Borne diseases and their control programme was organized under the auspicious of Dr.Sasi Kumar, District Malaria Officer (Health), Thrissur on 29/11/2018.
