

Start-up – C-Glow

The Department of Chemistry initiated the start up programme ‘Everyday Chemistry; A practical approach’ in the year 2019. This includes the production of Household products like soap, detergent, hand wash, dish wash, toilet bowl cleaner etc.. Products were made by the students and were distributed among the students and staff of the college.

Hand Sanitizer (C glow) Preparation: An initiative against COVID-19 and towards break the chain by the state government, In association with this, hand sanitizers were distributed among staff and students of the college to ensure personal protection against lingering virus on hands. A demonstration on the preparation of hand sanitizers was also conducted for the nearby school officials.
