#### **Brief Report of the Event**

OBJECTIVE : To enable students to know more about adulteration of milk and its testing procedures.

A two days training programme in milk and milk product – food safety supervisor was conducted by the food safety training and certification at college of dairy science and technology, Thrissur. Various sessions were conducted regarding the food handling and food safety of milk and milk products. Different Milma products and their production were familiarized to delegates. The sessions were carried out by the staffs of Milma Malabar region. The sessions were very interactive and informative. By completion of this certification, the delegates can work as food safety supervisor in milk and milk products industry.
